

DYLAN REDDICKS

Spring 26 IS301 Student

I'm currently majoring in Accounting and Information Systems with a Math minor. I'm looking to go into a financial advisement position when I graduate.

An actual hot Air Balloon I've flown in

I'm fairly proficient when it comes to computer use. I used to work for the University as an IT Classroom Support Technician along with growing up using computers and other various technologies.

Me

My Dog
(Kaylee)

On top of being fond of computers and video games, I also love to camp and was an avid outdoorsman. I've lived in Reno my whole life which leaves plenty of areas to explore (and made the college choice easier). My favourite movie is a little known movie called "Mr. Magorium's Wonder Emporium." I also like listening to most pop or lo-fi music. While I'd normally be alone, I'd probably be willing to do any activity if it's with friends.
